Some things are good for you,
So do them every day.
Eat lots of healthy food,
It helps you work and play.

Get lots of exercise,
And sleep eight hours a night.
Keep your body nice and clean,
It helps you feel all right.

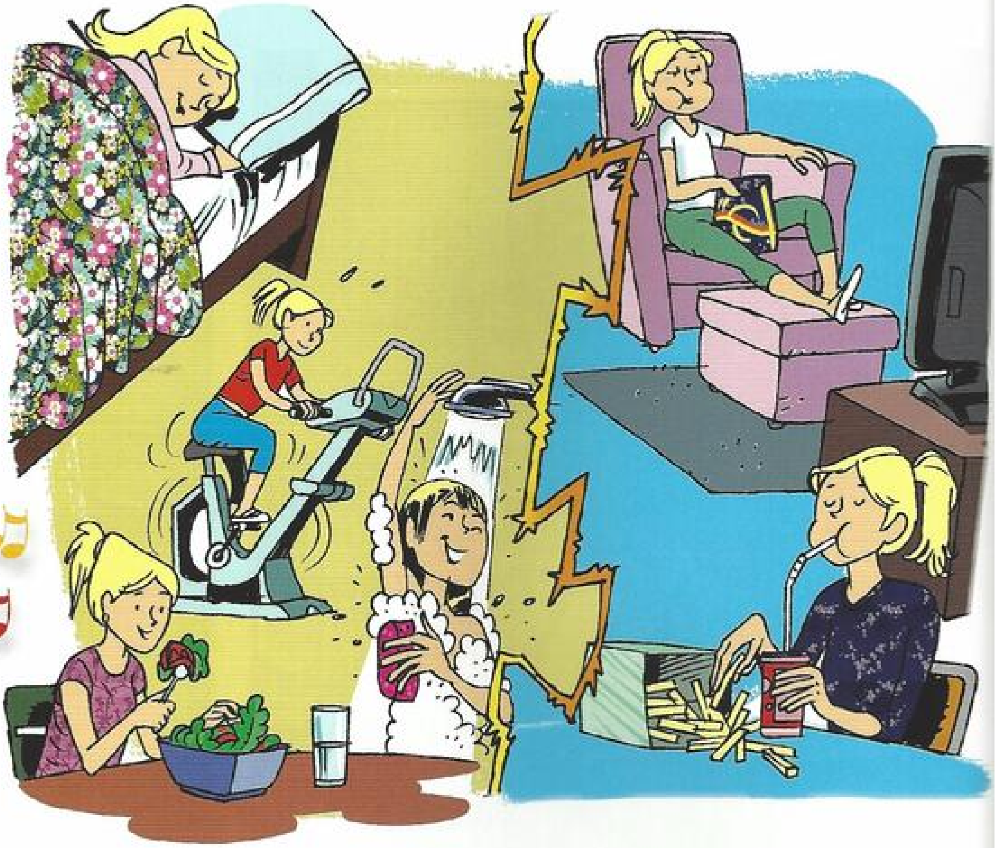
Don't do them every day.
Don't eat lots of junk food,
If you want to feel OK.

Watching TV's really great,
And sweets and soft drinks.
But too much is bad for you,
So think, think, think!



## 11 Follow and read.

Eating fruit is good for you because…

Sleeping eight hours is good for you because…

Eating a lot of sweets and candy is bad for you because…

Doing exercise is good for you because…

your body grows at night, when you're sleeping.

it helps your body grow and be strong.

it contains natural sugar and vitamin C for energy and good health.

they contain a lot of sugar and can make you fat.

## 12 Look and say with a friend.

Sleeping five hours a night.

Drinking water with meals.

Brushing your teeth once a month.

It's good for you. ✓

It's bad for you. ✗

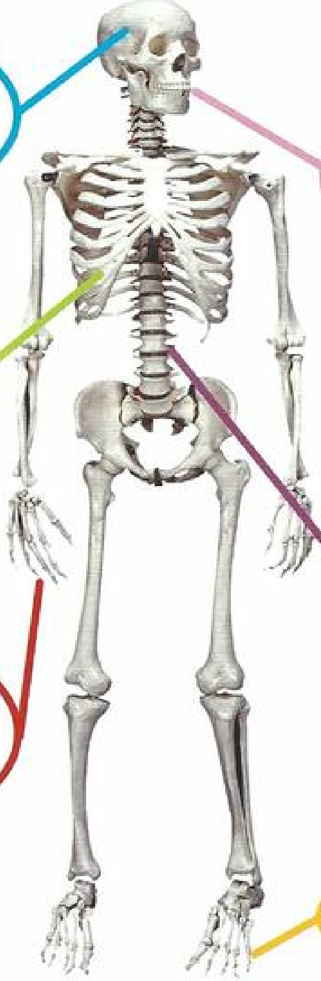
Riding your bike three times a week.

Eating junk food every day.

Taking a shower every day.

**13** Read and answer.

This is a human skeleton. Children have three hundred bones in their skeletons, but adults have two hundred and six. Some bones join together when we grow!



The skull protects your brain. Babies have soft skulls, but they become hard in the first six months of life.

Young children have twenty teeth. These teeth fall out when children are six or seven years old. Then they grow thirty-two new teeth.

We have twelve pairs of ribs. They protect the heart and lungs.

The spine is a long chain of bones called vertebrae. The spine is in the middle of your back. Children have thirty vertebrae. Some of the vertebrae join together when children grow, and adults have twenty-six vertebrae. The spine is flexible so we can run, dance and touch our toes!

More than half of the bones in the human body are in the hands and feet. There are twenty-seven bones in each hand.

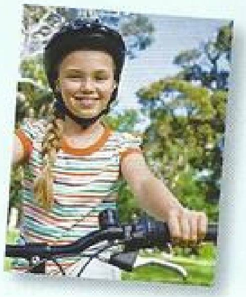
There are twenty-six bones in each foot.

## How can I have healthy bones?

Do exercise. Running, dancing and playing sports make strong bones!

Eat fruit and vegetables and drink milk. Fruit, vegetables and milk all have calcium in them. Calcium helps bones and teeth grow.

Play outside. Light from the sun makes vitamin D in our skin. We need vitamin D for strong bones.



Wear a helmet. Riding a bike and skateboarding are healthy, but it's important to protect your skull with a helmet.

# 8. Adventure Island

LESSON 1

**1** Listen and sing. 8.1

Adventure Island, lost at sea,
Is such a brilliant place to be.
Is there treasure buried there?
Can we find it if we dare?

Anita, Mark, Kim and Ben,
Are on the island, once again.
They want to go to Black Beard's Bay,
But nobody can find the way.

There's the path out of town,
But there's danger all around!
The Cliffs of Death, a waterfall,
A scary bridge, look out! Don't fall!

Around the swamp and through the caves,
Then we hear the ocean waves.
If there's treasure buried there,
We can find it! But beware!

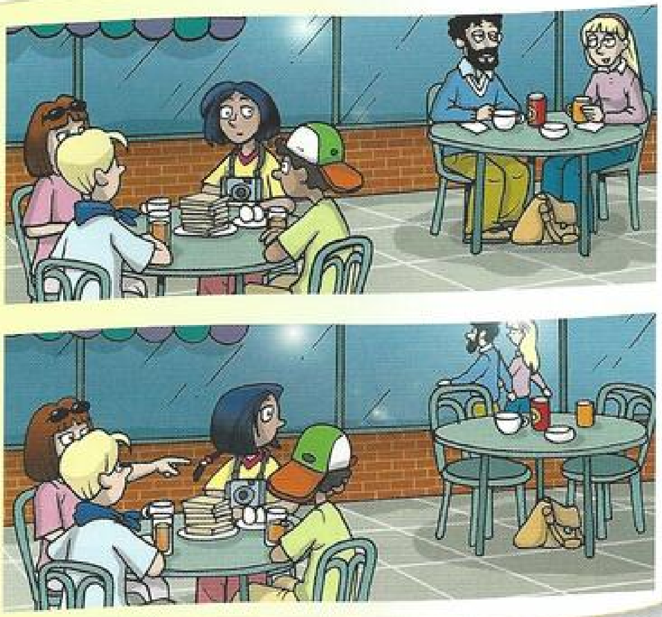
Can you see a swamp in the picture in Activity 1?
No, I can't.

## 3 Read the beginning of the adventure and answer.

Anita, Mark, Ben and Kim are on vacation on Adventure Island. It's a beautiful and exciting place with caves, waterfalls, swamps and a volcano.

On the first day, the children are having breakfast in a café. They're making plans. Anita likes volcanos. She wants to go hiking. Mark likes water sports. He wants to go surfing. Ben likes relaxing.
He wants to go to the beach. Kim likes adventures. She wants to explore the island and look for treasure.

There are a man and a woman having breakfast in the café, too. When they finish eating, they get up and go. But look! Their bag is under the table. Kim is curious. Where did the man and woman go? And what is in the bag?



## 4 Listen and read. 8.2

Where are the man and woman now?

I don't know. Let's look in the bag for a name or a phone number.

I can't see a name, but there are lots of papers in here.

Look! This one says *Top Secret*.

And look at this map of the island! Who are those people?

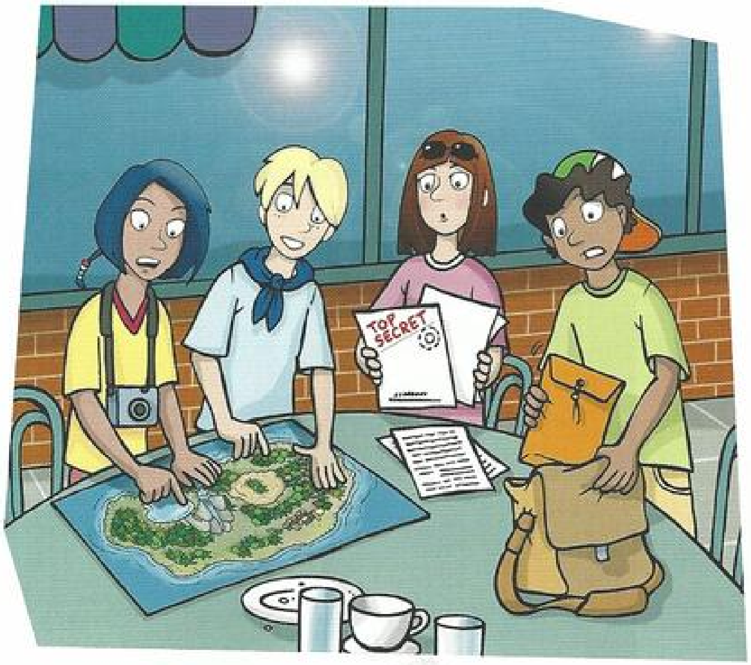
I think they're spies… or treasure hunters!

Mark, what do the papers say?

I think they're instructions for finding treasure!

And there are some instructions here. They say **Go through the town and over the bridge.**

Then they say **Go around the swamp, along the cliff and under the waterfall.**



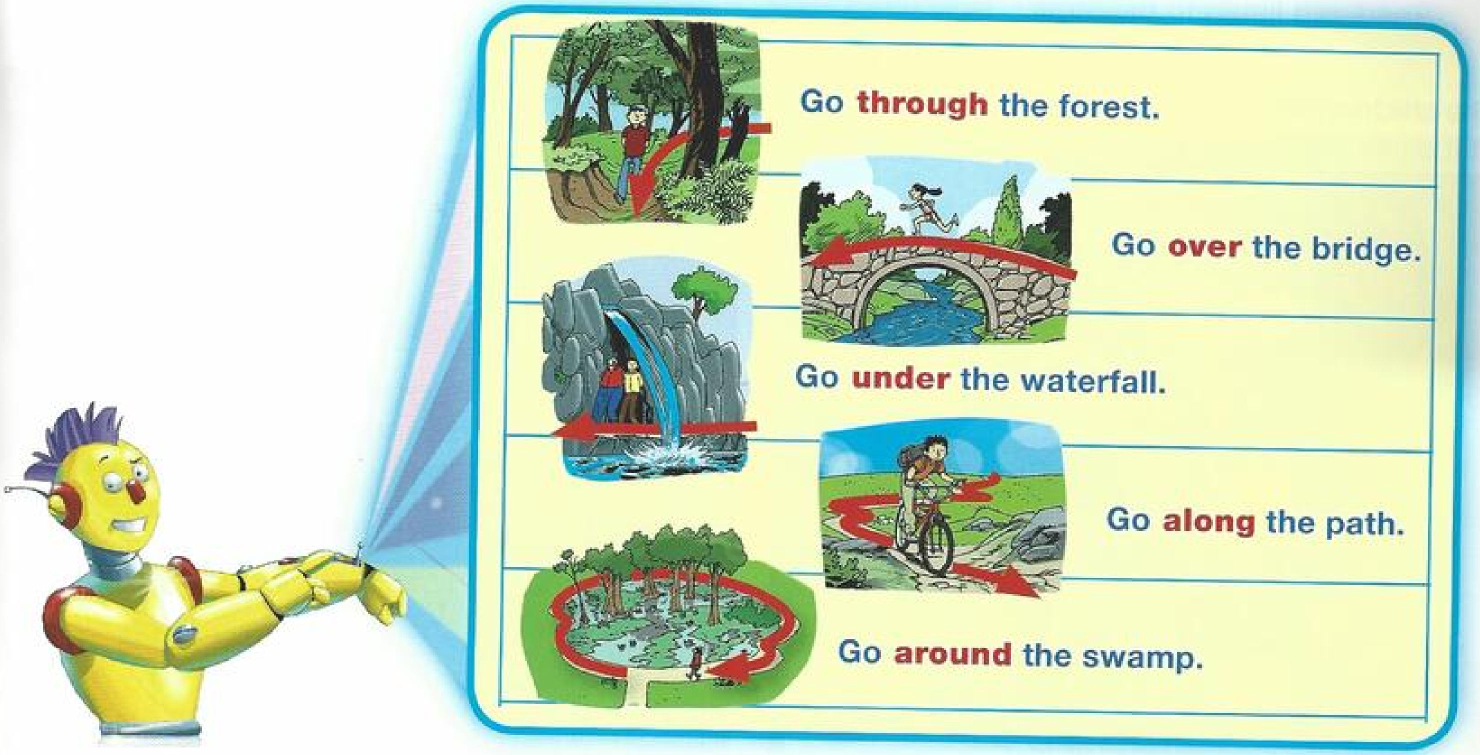
That's impossible! There isn't any treasure. That's only in stories.

Yes, there is! Come on, let's take the map and papers. We can find the treasure!

Good idea, let's go!

Wait! I'm coming, too!

**5** Listen and repeat.



Go **through** the forest.

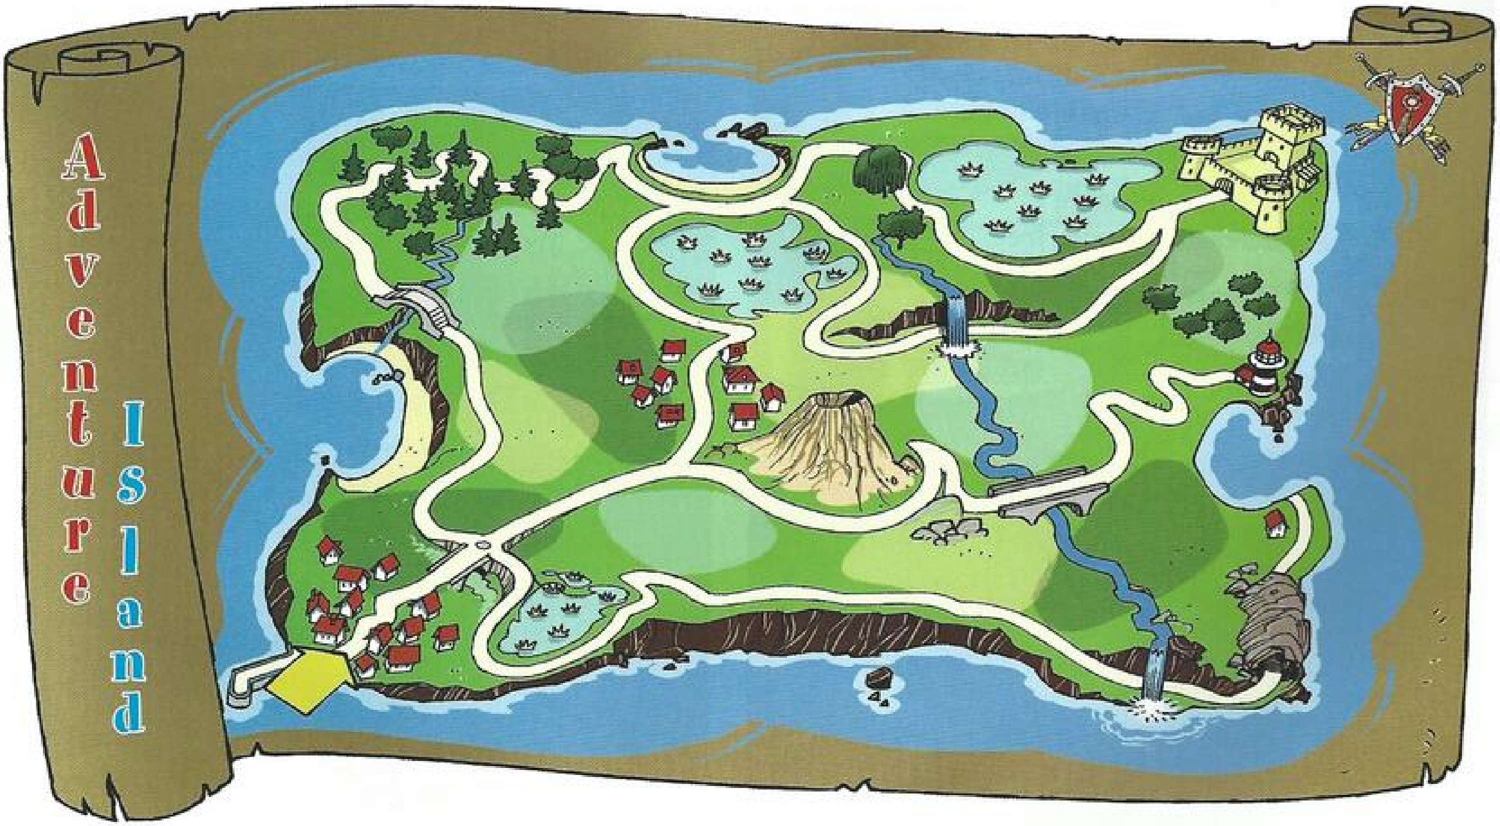
Go **over** the bridge.

Go **under** the waterfall.

Go **along** the path.

Go **around** the swamp.

**6** Look at the map. Listen and follow the directions. 8.3

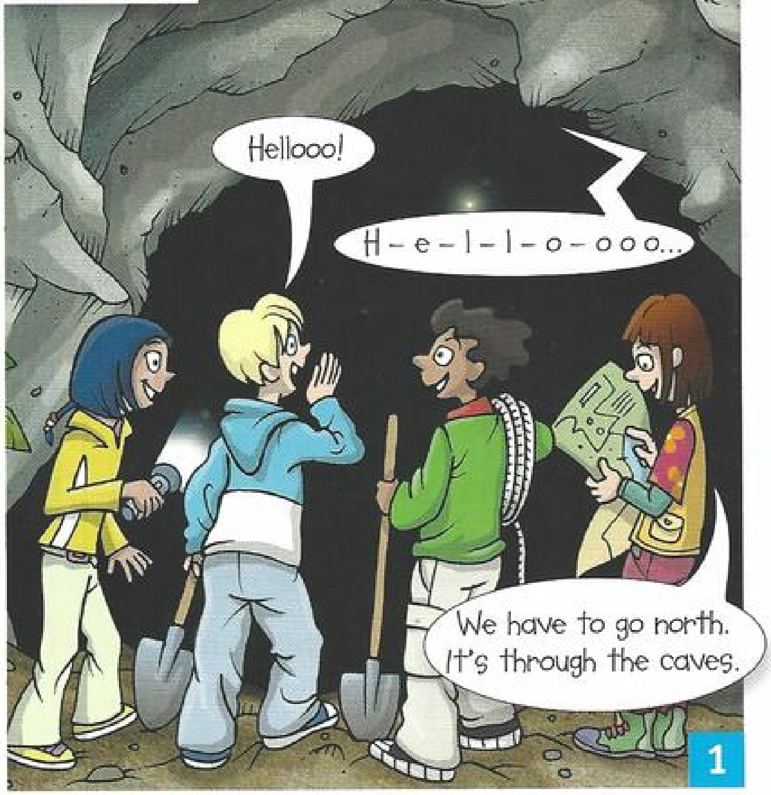


**7** Give directions in pairs.

# The Secret of Blackbeard's Bay!

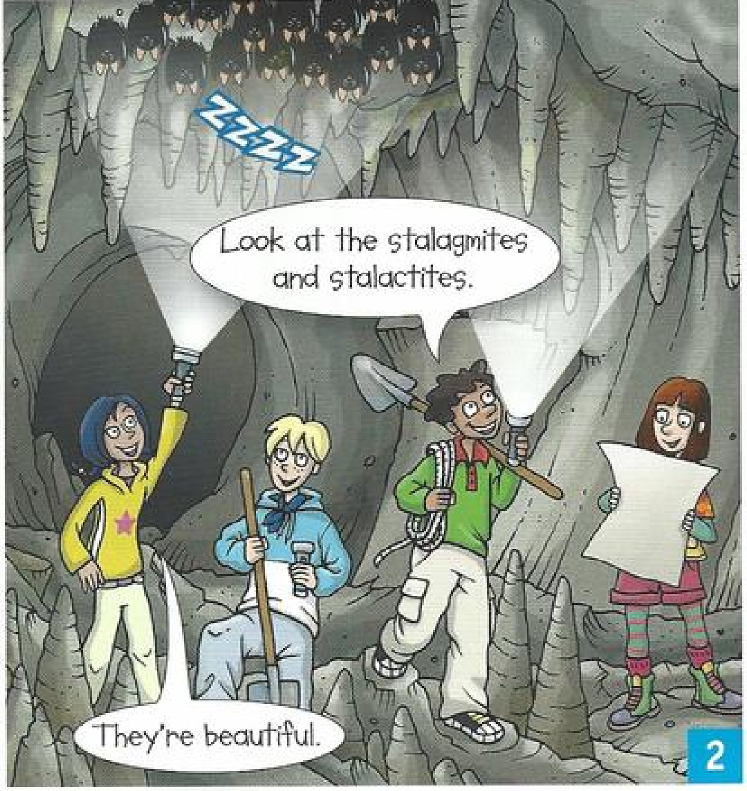
**8** Read and listen to the story. 8.4

The children are at the cave. Kim is looking at the map.



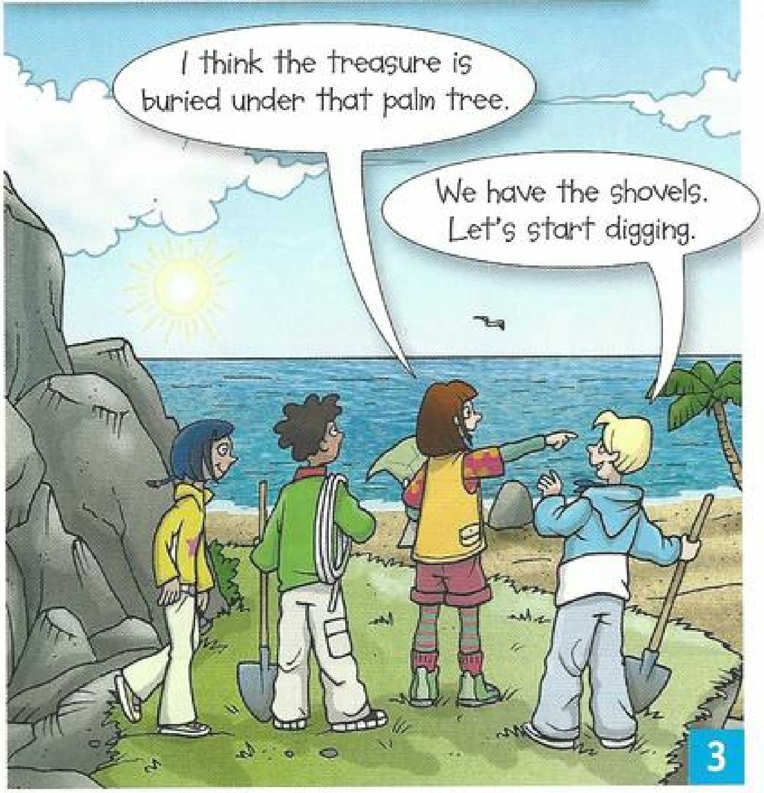
Hellooo!
H – e – l – l – o – o o o...
We have to go north. It's through the caves.
1

The children have flashlights. They can see bats sleeping in the caves.



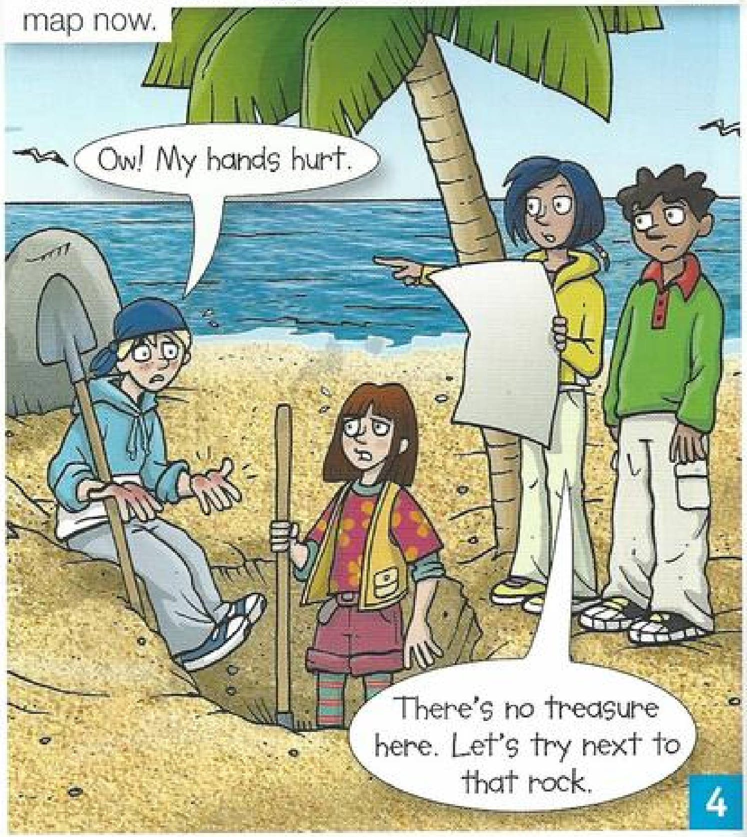
ZZZZ
Look at the stalagmites and stalactites.
They're beautiful.
2

The children follow the map and arrive at Blackbeard's Bay, but where is the treasure?



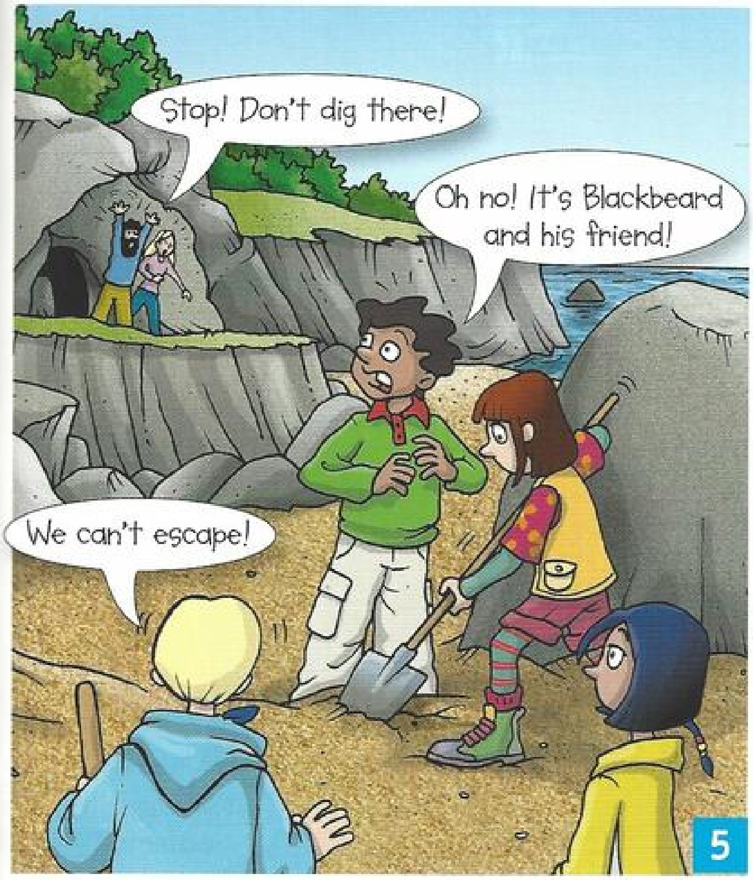
I think the treasure is buried under that palm tree.
We have the shovels. Let's start digging.
3

The children are digging a big hole. Anita has the map now.



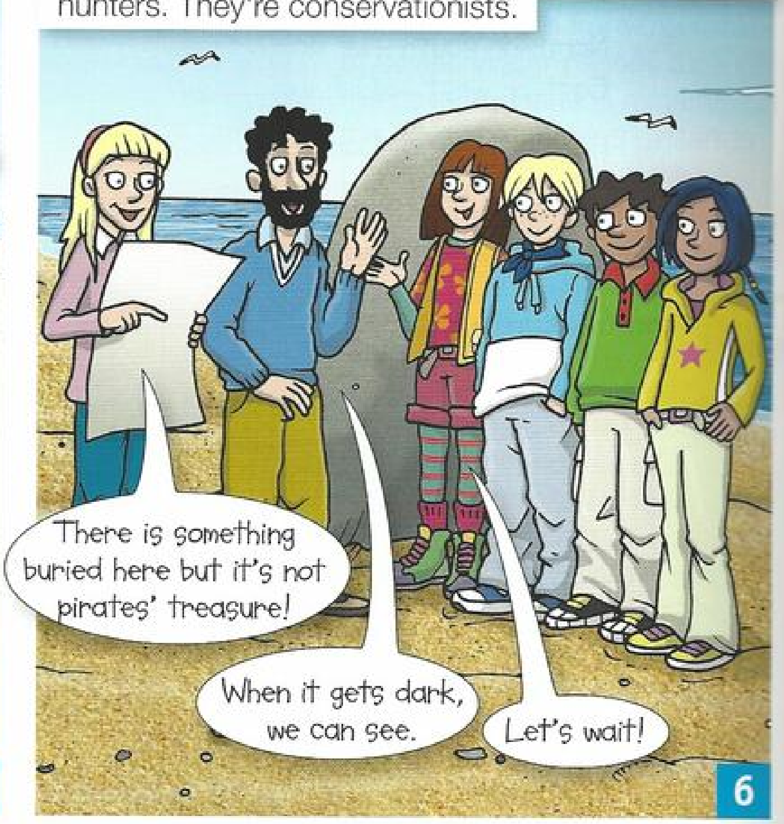
Ow! My hands hurt.
There's no treasure here. Let's try next to that rock.
4

**Find and name!**



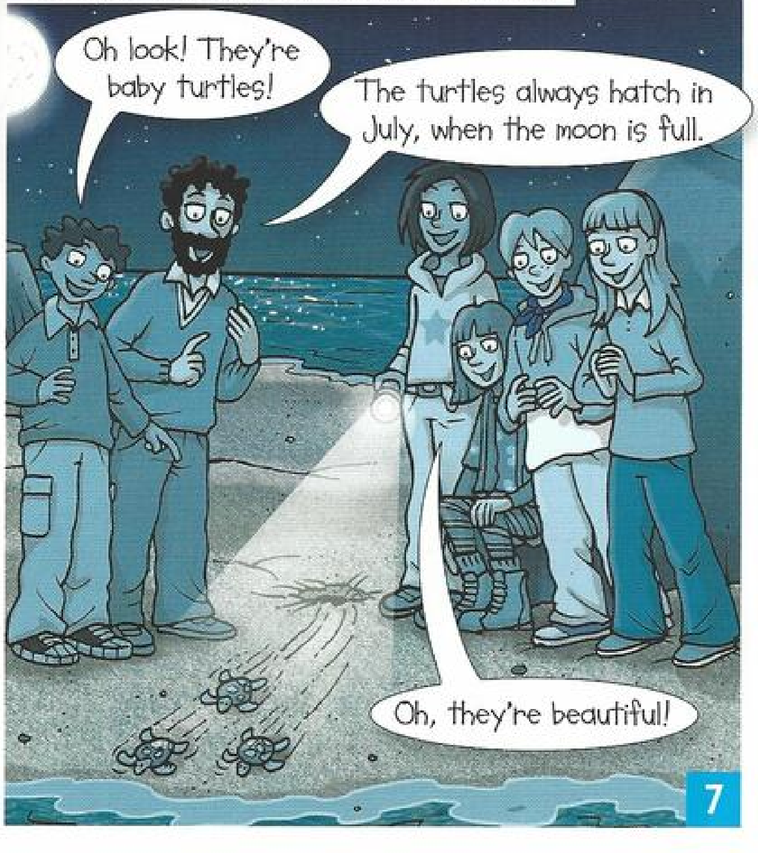
Stop! Don't dig there!
Oh no! It's Blackbeard and his friend!
We can't escape!
5

Blackbeard and his friend are not spies or treasure hunters. They're conservationists.



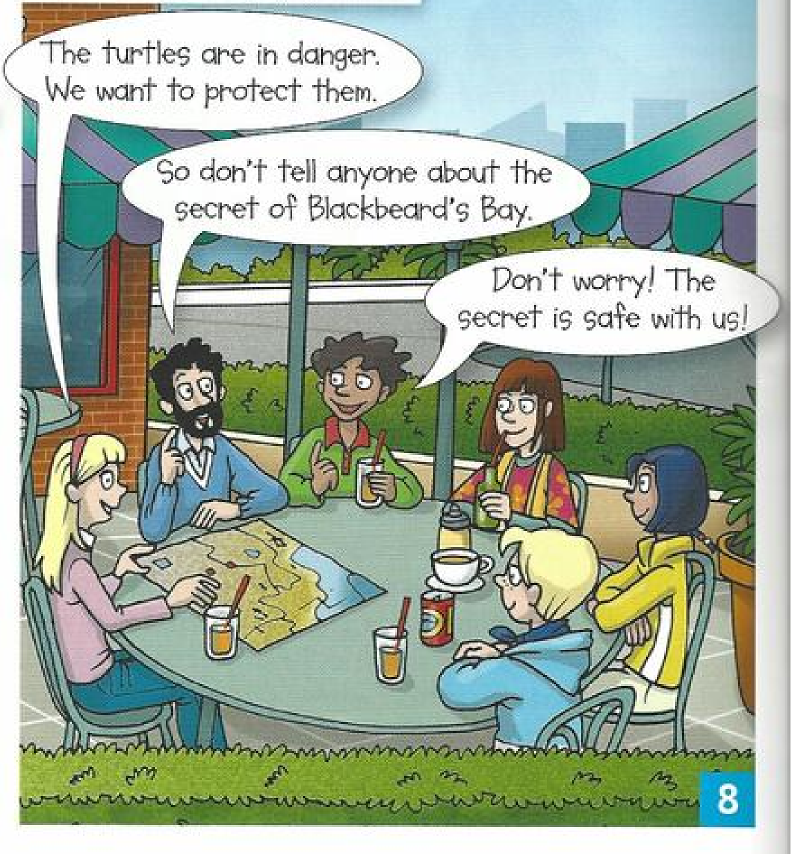
There is something buried here but it's not pirates' treasure!
When it gets dark, we can see.
Let's wait!
6

It's night time, but the moon is shining.



Oh look! They're baby turtles!
The turtles always hatch in July, when the moon is full.
Oh, they're beautiful!
7

The next day at the café...



The turtles are in danger. We want to protect them.
So don't tell anyone about the secret of Blackbeard's Bay.
Don't worry! The secret is safe with us!
8

## 9 Listen and repeat the chant. 8.5

North, south, east, west,
Looking for a treasure chest.

North or south –we don't know,
East or west –which way to go?

Here's the map. Can you see?
Read the clues and follow me!

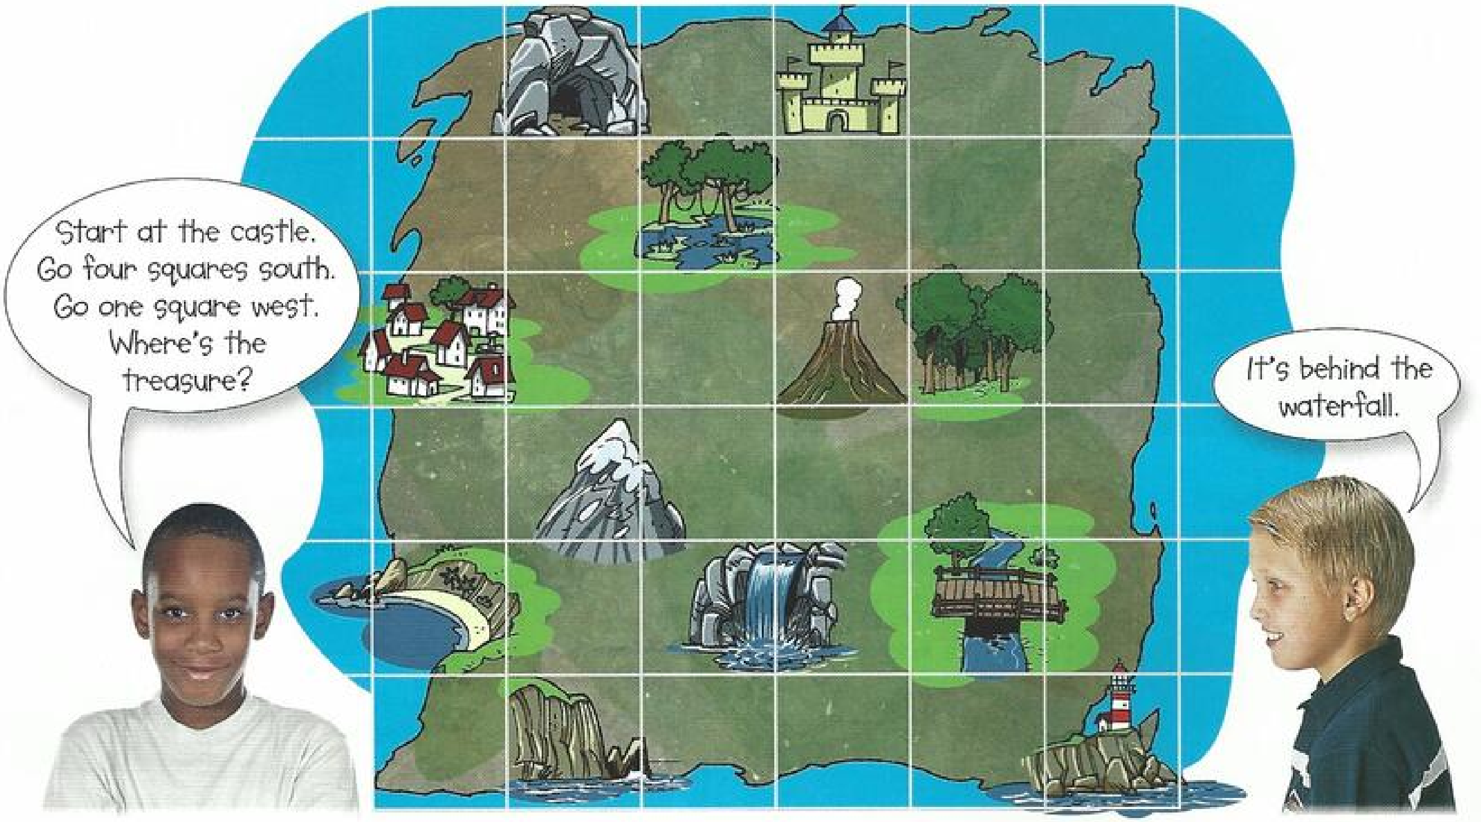
South

## 10 Find treasure in pairs.



Start at the castle. Go four squares south. Go one square west. Where's the treasure?
It's behind the waterfall.

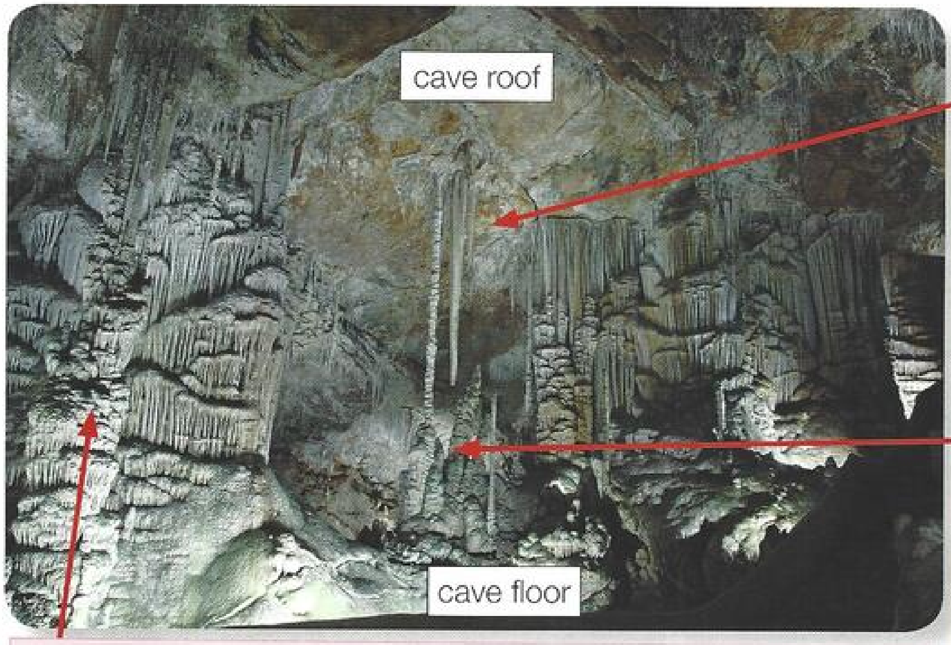
## 11 Read and write a postcard to a friend.

Hi Micky,

I'm on vacation at the beach with my family. I'm having a fantastic time. It's hot and sunny here. I wear shorts and a T-shirt every day. In the morning, I swim in the ocean and go snorkeling. In the afternoon, I read books and ride my bike with my sister. There's a high cliff and a lighthouse here.

See you soon! Andy

## 12 Listen, read and complete.



**Stalactites**
Stalactites hang from the roofs of caves. Water passes through the cave and leaves minerals on the cave roof. Over thousands of years, the minerals grow down and form a stalactite.

**Stalagmites**
Stalagmites grow from the floor of caves. Water falls from the roof and leaves minerals on the cave floor. Over thousands of years, the minerals grow upward and form a stalagmite.

**Columns**
Sometimes stalactites and stalagmites join and make a column.

## 13 Read about bats.

**Do bats live in caves?**
Bats sometimes live in caves. Bats live in big groups. Sometimes, thousands of bats live in the same cave! They live in forests and deserts, too.

**When do bats sleep?**
Bats usually sleep in the day and wake up at night. Bats use their claws to sleep upside down.

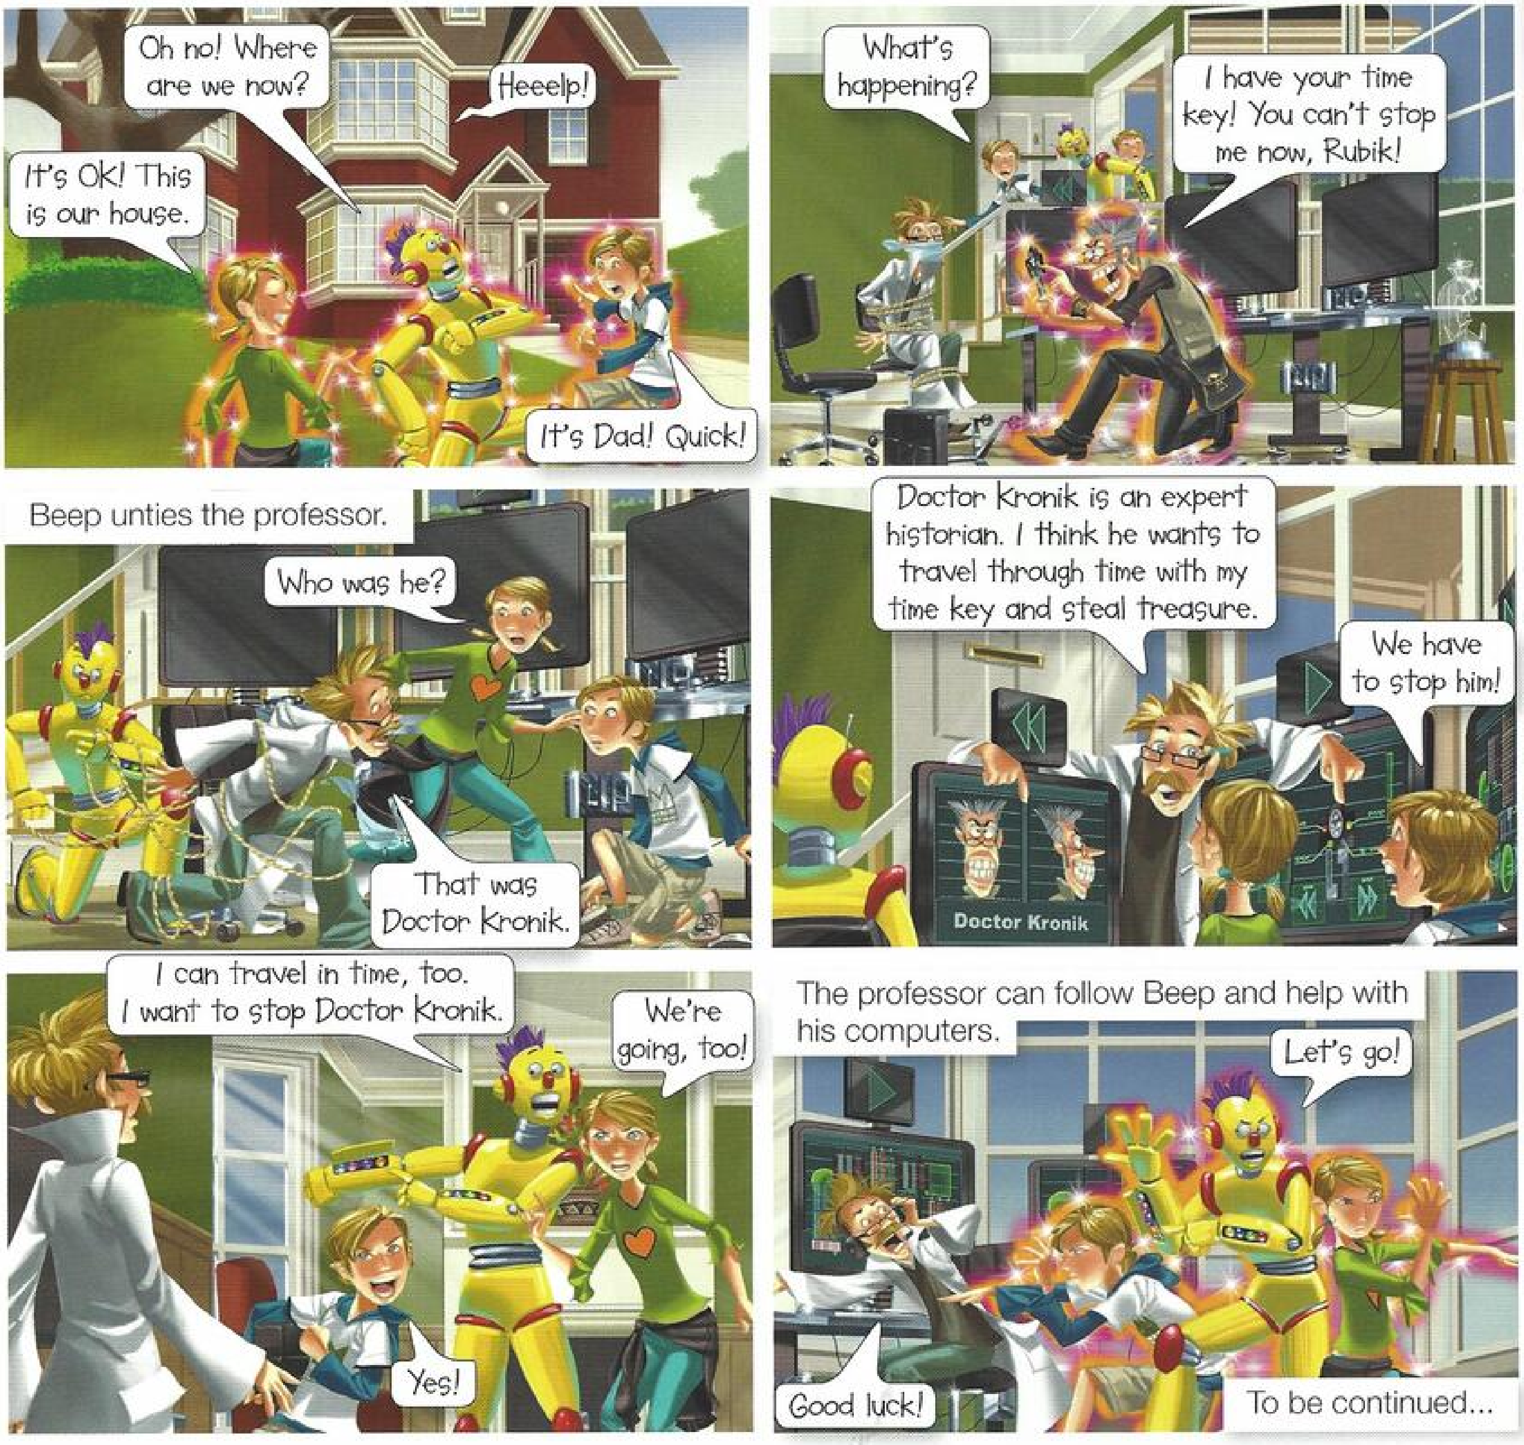
**What do bats eat?**
Bats eat fruit and insects. Some big bats eat small animals, too. Bats eat a lot. They can eat half their body weight in one day!

**What is echolocation?**
When they fly through a cave, bats make sounds. The sounds echo from the cave walls. The echoes help the bats find their way. This is called echolocation. Bats have eyes too but they can't see in the caves when it's dark.

## 14 Listen and answer *True* or *False*. 8.6

# The Adventures of Beep!

**15** Read and listen. 8.7



Oh no! Where are we now?
Heeelp!
It's OK! This is our house.
It's Dad! Quick!
What's happening?
I have your time key! You can't stop me now, Rubik!
Beep unties the professor.
Who was he?
That was Doctor Kronik.
Doctor Kronik is an expert historian. I think he wants to travel through time with my time key and steal treasure.
We have to stop him!
Doctor Kronik
I can travel in time, too. I want to stop Doctor Kronik.
We're going, too!
Yes!
The professor can follow Beep and help with his computers.
Let's go!
Good luck!
To be continued...
